

RPA Web Approach for Internet Banking

Automation Goal: Account Statement Retrieval (Movimentos)

Automation Process Details

This automated account statement process retrieval is done using RPA (Robotic Process Automation) and UiPath Studio. In a nutshell the process is described as follows:

- 1st The robot opens the browser with the STD Bank Net Plus URL
- 2nd Inserts the login credentials and logs in
- 3rd It hovers the “Conta” tab and clicks on “Movimentos” menu option
- 4th It clicks on the first-row search icon
- 5th Then clicks on the PDF icon
- 6th Finally, saves the file on the downloads folder.

And the automation process is finished!

Thank You...
